

WHAT IS CLAIMED IS:

1. A textile fabric comprising a fabric base layer having a front side and a back side, and a back coating layer having a bonding side bonded to the back side of
5 said fabric base layer and a back body side, said back coating layer being prepared from TPU (thermoplastic polyurethane), PS (polystyrene), and EVA (ethylene vinyl acetate), and coated on said fabric base layer.
2. The textile fabric as claimed in claim 1, wherein said fabric base layer is
10 made from a material selected from a group consisting of nylon and polyester.
3. The textile fabric as claimed in claim 1, further comprising a bonding layer bonded between said fabric base layer and said back coating layer.
- 15 4. The textile fabric as claimed in claim 3, wherein said bonding layer has a first side bonded to the back side of said fabric base layer, and a second side bonded to the bonding side of said back coating layer.
5. The textile fabric as claimed in claim 4, wherein said bonding layer is
20 prepared from PMMA (polymethyl methacrylate), viscosity index improver, additives, and toluene.
6. The textile fabric as claimed in claim 1, wherein said back coating layer is prepared from said TPU, said PS, said EVA, and a processing oil obtained from long
25 chain dihydric alcohols or short chain dihydric alcohols.

7. The textile fabric as claimed in claim 6, wherein said back coating layer is prepared from said TPU, said PS, said EVA, said processing oil, and additives.

5 8. The textile fabric as claimed in claim 7, wherein said back coating layer is embossed.
